

# Super Wax Polish

## Water Based Acrylic and Wax Copolymer

### DESCRIPTION

SUPER WAX POLISH is a water-based acrylic & wax co-polymer which forms a tough abrasion resistant clear non-yellowing top coat polish to protect existing sealers and finishes. This co-polymer offers excellent gloss and can be stripped with conventional wax polish removers. Its toughness protects the existing finish and acts as a sacrificial coating for the hard sealed substrate. SUPER WAX POLISH resists scuffs and marks while enhancing the gloss of the finish below. SUPER WAX POLISH also increases slip resistance. SUPER WAX POLISH is formulated as follows:

**SUPER WAX POLISH GLOSS** provides a high gloss showroom finish.

**SUPER WAX POLISH MATTE** provides a matte finish for a more natural look.

### FEATURES

- ★ Reduces the need to reseal surfaces
- ★ Durable scuff resistant coating
- ★ Increased slip resistance
- ★ Non-yellowing

### PREPARATION

Surface should be clean and sealed

### APPLICATION

Apply with lamb's wool or microfiber applicator. Two or three initial coats may be preferred. Allow 30-60 minutes between coats to dry. Buffing with high speed buffing machine will maximize luster of SUPER WAX POLISH. Allow 4 hours to cure and dry before foot traffic resumes. Re-apply as needed.

### NET COVERAGE RATE

1,000 ft<sup>2</sup> per gallon per coat. 2-3 coats may be preferred.

### TECHNICAL DATA

VOC: standard 0g/L  
Flash Point: N/A

### HMIS

Health	0	Flammability	0
Reactivity	0	Protection	A

### CLEANUP

Clean up tools with water

### MAINTENANCE

Cleaning of the polished surface should be accomplished using ONLY water or Pledge Multi-surface cleaner and a soft mop. DO NOT USE aggressive cleaning agents, such as citrus-based, ammonia, or 409/Simple Green, bleach cleaners. Using an abrasive cleaning tool will scratch and dull the polished surface, requiring re-application of SUPER WAX POLISH to restore the shine.
